415.678.6948

Full-Stack ML / AI Engineer | Technical Project Manager

2 years prompt and context engineering with Claude, Codex and open weight models.

4 years designing and building neural networks (CNN, RNN, mini-transformers) with PyTorch and Tensorflow.

30 years of “C” level business management consulting in the entertainment, travel, education and finance industries.

40 years of Web, mobile, cloud and desktop software design and development with Ruby, Python and React frameworks using Google Cloud, Microsoft Azure and AWS backends.

I enjoy working with stakeholders to design and implement software solutions to solve business problems and improve the work experience. I have helped many startups and medium to large organizations achieve their business and team goals and founded two tech startup companies.

SKILLS

AI-assisted Project Management | AI Product Design | AI Design & Programming | Agile | Scrum | Claude Code | OpenAI Codex | bash | Command Line Scripting | Git | Docker | Neural Networks | RNN | CNN | NLP | Pytorch | Tensorflow | Big Data | BI & Tableau | HTML | CSS | JavaScript | TypeScript | React | Vue | Next.js | Python | Django | Ruby on Rails | SQL | NoSQL | GraphQL | AWS | Google Cloud | Azure | Kubernetes | Helm | Terraform | REST APIs | Evaluation Driven Development | CI/CD | Test Driven Development | RAG | LangChain

Professional Experience

2012 - Present | Full Stack Developer, ML / AI Engineer & Software Project Manager

Designed and developed production AI services and scalable machine learning pipelines using TensorFlow, PyTorch and cloud SDKs. Collaborated with cross-functional teams to define user stories, use cases, and translate complex business problems into actionable data-driven solutions. Leverage cloud platforms (AWS, Google Cloud, Azure) and WandB tools for model training, evaluation and deployment. Managed agile development teams and projects, ensuring timely delivery of projects for the University of Hawaii and innovative startup companies.

2009 - 2011 | Software Project Manager | Atlantis Cyberspace, Inc.

ACI developed a cutting edge hardware and software virtual reality training system for the US Army National Guard. The Immersive Group Simulation enables up to 64 people to communicate with each other, interact, drive vehicles and the program interfaces with flight simulators from other vendors. We interviewed stakeholders, studied existing physical systems, performed feasibility studies, produced requirements and developed custom hardware and software solutions that improve the quality of training with measurable results.

https://vimeo.com/3738508

2000 - 2008 | Senior Web Developer & Software Project Manager | University of Hawaii

Developed full-stack Web and mobile applications using Oracle, SQL Server, Struts and IBM Web Sphere. Migrated apps to Ruby on Rails and implemented an Oracle data warehouse.

Led a team of designers and developers in building web applications with intuitive user interfaces and a focus on accessibility and security. Developed budgets and project reports, mentored junior team members and performed annual performance reviews.

1990 - 2000 - Sr. Web Developer / Project Manager | Visitor Communications Technologies

Founder, lead UI, UX designer and developer for Hawaii's first digital agency.

Developed CD ROMs, Touch Screen Kiosks and database backed Web applications for clients, such as, Aloha Airlines, Ala Moana Shopping Center, Bess Press, Budget Rent-A-Car, the Hawaii Visitors and Conventions Bureau, Hilton Hotels, Hula Records, Mutual Publishing, Royal Hawaiian Shopping Center and many more. We worked closely with companies in-house staff and advertising agencies to create compelling and innovative digital experiences for their properties, the Web and trade shows.

AI / ML / Cloud Certifications:

2025 - General Assembly - Data Science / Machine Learning
2024 - AWS - Cloud Developer
2024 - AWS & GCP - Cloud Architect
2023 - Google - Agile Project Manager
2023 - Amazon Sagemaker - Machine Learning Engineer
2009 - Oracle Database Administrator (All 5 tests)

Languages: Excellent English, Spanish and Hawaiian. Conversational Japanese and French.
